sensor device has the ability to make “dumb” devices intelligent by allowing them to communicate with certified Z-Wave smart home hubs and gateways. fibar.com, \$39

LeakSmart
LeakSmart

WINNER

The system detects leaks, shuts off a home’s main water supply and notifies homeowners in five seconds of a potential problem. LeakSmart comprises wireless sensors, app, the new

Snap shutoff valve controller and Hub 3.0, which continues working during power outages or inactive Wi-Fi. The device can be used independently or with a smart home system.

leaksmart.com, Snap \$349; Hub 3.0 \$169; Sensor \$69; App free

LifeDoor
LifeDoor

LifeDoor is a simple yet powerful fire safety device for the home. Reacting to the sound of activated smoke alarms,

LifeDoor automatically closes the door to which it is attached. A built-in LED light also illuminates and a secondary alarm sounds.

lifedoor.io, \$99

Nortek Security & Control

Elan Intelligent Video Doorbell with IntelliVision

The Elan Intelligent Video Doorbell elevates the front door experience by providing homeowners with an added level of safety and security for the main access point of their home. Incorporating remote access and advanced motion analytics, the new Intelligent Video

Doorbell delivers both convenience and peace of mind.

nortekcontrol.com, \$699

Nuro Technologies

Nuro Home Intelligence Platform

The Nuro Platform provides the insights needed to drive the next generation of smart homes. Nuro constantly gathers information about what’s happening in the home, learns patterns and preferences to develop deeper

insights, and shares these insights with home automation and control systems — all while protecting privacy. nuro.tech, \$50

BEST EDUCATION OR SUPPORT PROGRAM

Alarm.com

WINNER

The Alarm.com Academy

This is a comprehensive training program for service provider partners. Featuring in person and online training programs, partners receive extensive training on all aspects of the Alarm.com platform, including all the devices in the Alarm.com ecosystem, customer solutions and extensive partner services platform. alarm.com, N/A

DISRUPTOR AWARD

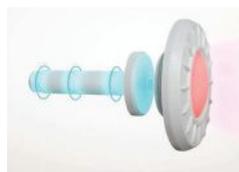

AirTV
AirTV

WINNER

AirTV lets customers stream local broadcast news, sports, and entertainment channels like ABC,

CBS, NBC, and FOX to AppleTV 4K, Roku, and Amazon FireTV, as well as mobile devices. AirTV connects an HD antenna to a network to deliver local channels to devices, in and outside the home. airtv.net, \$119

S.R. Smith

MOD-Lite with PowerPass Wireless Technology

The MOD-Lite blends modern technology, modular design and advanced electronics to create a unique lighting product. Power

Pass (Wireless Power Technology) offers a new twist on LED pool lighting that enables energy to flow to the light without wires, which contributes to a safer and more flexible LED light in an under-water environment. srsmith.com, \$299

Safe Zone

Safe Zone Gunfire Detector

This active shooter security system can be easily installed in virtually any type of public environment. The system responds within 10 seconds to an active shooter situation, analyzing the on-

the-ground situation and automatically communicating with all key personnel, saving time and ultimately, saving lives.
